

## Together wherever we go

Wherever we go, whatever we do,  
We're gonna go through it together  
We may not go far, but sure as a star  
Wherever we are it's together

Wherever I go, I know he goes  
Wherever I go, I know we go  
No fits, no fights, no feuds and no egos  
Amigos – together!

Through thick or through thin, all out or all in  
We lose or we win but we know  
With you for me, and me for you  
We'll muddle through whatever we do  
Together, wherever we go!

## Flying Round

I'd like to fly an aeroplane, and land it on the moon  
I'd like to fly an aeroplane, or sail in an air balloon

Soaring up high  
In the blue sky  
Gliding, swooping  
I will fly

I'll flap my wings like this  
I'll flap them up and down  
Flapping my wings might just be the thing  
To get me off the ground

## The Same Moon

Can my friend see the same moon as me?  
High up above in the night's starry sea  
Do they know I can see the same sky?  
Can my friend see the same moon as me?

Fly up moonbeams  
Shine down moonlight  
Send up my dreams  
Can my friend see the same moon as me?

## Thank you for being a friend

Thank you for being a friend  
Travelled down the road and back again  
Your heart is true, you're a pal and a confidant

I'm not ashamed to say, I hope it always will stay this way  
My hat is off, won't you stand up and take a bow

And if you threw a party, invited everyone you knew  
You would see the biggest gift would be from me  
And the card attached would say  
Thank you for being a friend (*I wanna thank you*) x3  
Thank you for being a friend

If ever you have a dream  
I'll be there however hard it seems  
If things go wrong, I will catch you when you fall

I'm not ashamed to say, I hope it always will stay this way  
My hat is off, won't you stand up and take a bow

And when we both get older, with walking sticks and hair of grey  
Have no fear, even though it's hard to hear,  
I will stand up close and say  
Thank you for being a friend (*I wanna thank you*) x7  
Thank you for being a friend
